Plan today for your family's future

If you're an expat in Portugal, it's never too early to start planning for the future, to safeguard your financial security and that of your dependents.

When Portuguese tax authorities made changes to income tax legislation Trusts became taxable. This has left many expats looking for more effective ways to invest their money.

At Blacktower, we offer some great solutions. Our Private Wealth Portfolio is a single-premium, unitlinked life insurance policy specifically designed to help Portuguese residents make the most of their finances.

The benefits of our private wealth portfolio

The life insurance policy is designed to comply with all legal requirements to minimise taxation under personal income tax. This means, if you're a Portuguese resident, you won't pay any tax if you do not take an income from the asset. If you decide to take an income you will pay tax on the proportional gain. If no gain has been made, there will be no tax to pay. What's more, the product can be set up quickly and simply, avoiding the complexity and often high starting costs of vehicles such as SICAVs and SIFs.

Our advice, your advantage

- Discuss your life assurance requirements
- Advice on Portuguese tax legislation
- Plan your Private Wealth Portfolio
- Help make the most of your finances
- Find assistance in your language
- Talk to us today

Blacktower's Private Wealth Portfolio could help you in a number of ways, including:

- **Efficient tax planning** – you'll have the ability to determine when, or if, a liability to Portuguese tax arises.
- **Exclusion from Stamp Duty** – life insurance premiums are excluded from Portuguese Stamp Duty as per Article 7, paragraph 1(b) of the Portuguese Stamp Duty Code.
- **No inheritance or gift tax to pay** – There is no inheritance tax to pay in Portugal. Stamp Duty is paid at a flat rate of 10% for gratuitous transfers, but transfers to spouses, descendants and ascendants are exempt.
- **Instant fund availability** – Because the insurance proceeds aren't part of your estate, the Private Wealth Portfolio can be paid immediately to beneficiaries on your death.
- **Flexibility and liquidity** – Funds can be recovered at any time through total, partial or regular surrenders, thus offering total, immediate liquidity.

The Portuguese Life Policy complies with legal requirements. To find out more, contact Blacktower today.

BLACKTOWER
FINANCIAL MANAGEMENT GROUP

When you're not on land

Anyone who spends a large proportion of their time away at sea will know that their financial services needs are a little different from clients who live and work on solid ground.

At Blacktower, we have been working in the financial services sector since 1986 and have made it our mission to understand the specialist needs of yacht crew and high-net worth individuals who sail the globe for work or pleasure.

Our yacht crew financial services, offered across our branches, include:

- Seafarer bank accounts
- Savings plans for yacht crew
- Mortgage solutions for seafarers
- Specialist investment plans
- Critical insurance solutions

Our advice, your advantage

- Specialist seafarer bank accounts
- Advice on savings plans
- Bespoke solutions for seafarers

Savings for the marine industry

We understand that making the most of your money is likely to be an important factor when choosing financial services, and our knowledge of the seafaring sector has helped us devise offshore savings plans tailored for groups of seafarers through world-class Life Insurers.

As you travel the globe it can also be reassuring to know that your retirement savings are being looked after, so we offer bespoke solutions for yacht crew to ensure their time at sea doesn't hinder their long-term financial goals.

If you are contracted through different countries around the world, as many seafarers are, Blacktower savings plans are built to fulfil your needs which are likely to be very different to land residents.

Banking for seafarers

The Seafarer Account, provided in association with the Standard Bank Isle of Man, is uniquely designed to meet the specific needs of yacht crew. Available in a range of currencies – GBP, EUR, USD and AUD – the account has a low minimum balance, no minimum income requirement and offers free electronic payments. Combined with an optional Visa debit card and secure 24/7 internet banking, the Seafarer Account offers control and flexibility wherever you are in the world.

*Any agents' charges, foreign correspondents' charges or other indirect costs incurred in connection with transactions undertaken at your request will be passed on to you.

Yacht crew mortgage solutions

Different geographical contracts mean you could be earning your income in USD and/or EUR, but perhaps you wish to secure a mortgage in GBP. The seafarer mortgage solutions Blacktower has established can help you negotiate the complex and often confusing area of foreign currency mortgages.

Whatever type of mortgage you need, whether you are a first-time buyer, moving on, or you need to re-mortgage, arrangements can be different for seafarers and yacht crew. Our financial advisers have the experience and knowledge to provide you with solutions.
